**SAT 19:00 Inside the Bat Cave (m000nx12)**

A remarkable journey into the secret world of one of the most endangered and least understood animals on earth – bats. With cutting-edge night-vision cameras and ultrasonic detectors, this programme follows a greater horseshoe bat roost for four months during the summer of 2019, capturing the hidden life of the colony as never before. Witness the birth of a new generation of pups and follow their progress towards their perilous maiden flight outside the roost.

**SAT 20:00 Castles: Britain's Fortified History (b04v85sy)**  
Defence of the Realm

Sam Willis explores how, by the Wars of the Roses, castles were under attack from a new threat - the cannon - but survived into the Tudor era only to find their whole purpose challenged. What had once been strategic seats of power now had to keep up with the fickle fashions of the court and become palaces to impress monarchs such as Elizabeth I.

Just as castles seemed to have lost their defensive function, the English Civil War erupted. The legacy of that tumultuous period resulted in castles no longer being associated with protection. Rather, their ruins took on a unique appeal, embodying a nostalgia for an age of chivalry that became a powerful part of the national psyche.

Series 40

Black Country Living Museum

The Antiques Roadshow visits the Black Country Living Museum in Dudley, where surprising finds include a 3,000-year-old baby rattle and a Faberge treasure destined to become one of the most valuable items ever seen on the show. Jewellery specialist Geoffrey Munn is left breathless by the majestic beauty of the regimental jewel, commissioned by the Countess of Dudley in 1903 for the Queen's Own Worcestershire Hussars in honour of their service in the Boer War.

Other discoveries include a typewriter used by children's author Enid Blyton to create some of her most famous works and one of Laurence Olivier's first acting scripts, carefully transcribed in his own hand.

Indian art specialist Amin Jaffer delivers a short history of the spittoon, while Andy McConnell challenges Fiona to guess which glass object has increased the most in value.

The most poignant find of the day is a tin of children's toys and trinkets that had been hidden up a chimney as part of a treasure hunt in 1940. Could Roadshow viewers help identify the young girl who left the trail of clues after being struck down with illness?

Series 8

The Lost Gainsborough

The team investigate an 18th-century landscape: could it be a lost work by the great British master of landscape painting, Thomas Gainsborough?

The painting has been in the family of owner Mark Cropper for generations, and until the 1970s it was considered to be a Gainsborough. But then a valuation downgraded it to a Barker of Bath – an attribution Philip calls a 'bin name'. Mark's father tore off the Gainsborough label in disgust, but Mark would love to be able to put the name Gainsborough back on the painting.

Philip is intrigued by this painting as it's a landscape he recognises. Mark's picture looks very much like a famous print by Gainsborough, copied from one of his paintings, believed to be lost for many years. The trouble is that in 1999, Philip helped authenticate a different picture as 'the lost Gainsborough'. Could he and the experts who authenticated that picture have got it wrong?

The Gainsborough print of the lost picture was very famous, and over the years it has been copied many times. Could Mark's picture be merely a copy of the print? By studying the various copies and prints and examining how they differ, Philip deduces that Mark's picture isn't a copy of the print, which means it's either a copy of the original or the original itself.

Meanwhile, Fiona tries to trace the provenance of the picture. Her journey takes her to grand country houses, archives and auction houses up and down the country as she follows the trail of several labels on the back of the frame. She also meets the son of the former owner of the Gainsborough landscape that was authenticated in 1999. She is keen to know what provenance was attached to that picture.

At the Courtauld Institute, infrared and x-ray photography reveal a startling discovery beneath the layers of Mark's painting. Finally, the dossier of evidence is handed over to Hugh Belsey, the expert who will determine the fate of the painting.

Series 8

North

The remains of a Tudor house in Leicestershire were thought to be the childhood home of England's forgotten queen, Lady Jane Grey. But when archaeologists excavate, they find more than they bargained for. In Northern Ireland, the graveyard of a Victorian workhouse sheds new light on one of the most traumatic periods of modern Irish history, the Great Famine of 1845.

A team from Sheffield University want to understand the lives of people who occupied a village near the famous caves at Creswell Crags in Nottinghamshire. But could the clues - tales of superstition, witches, and the occult - be hidden in plain sight?

Near Lincoln, a return to an Anglo-Saxon site proves rewarding with the discovery of a spectacularly well-preserved bronze and enamel Roman bowl, carefully laid into a grave. And, on Rousay in the Orkneys there's tantalising evidence of an undiscovered Viking longhouse.

**MON 21:00 Archaeology: A Secret History (p0109k28)**

The Search for Civilisation

Archaeologist Richard Miles shows how discoveries in the 18th and 19th centuries overturned ideas of when and where civilisation began as empires competed to literally 'own' the past.

**MON 22:00 The Greatest Tomb on Earth: Secrets of Ancient China (b080396k)**

From the depths of the greatest tomb on earth comes an epic new story that could rewrite history, revealing for the first time the true origin of one of the world's most powerful nations: China.

In this landmark film, historian Dan Snow, physical anthropologist Professor Alice Roberts and scientist and explorer Dr Albert Lin investigate a series of earth-shattering discoveries at the mighty tomb guarded by the Terracotta Warriors, a site two hundred times bigger than Egypt's Valley of the Kings and the final resting place of China's first emperor.

Mobilising the latest technology, delving into some of the oldest texts, enlisting world experts and employing forensic science, together the three reveal an explosive secret from the foundations of the Chinese empire.

**MON 23:00 Treasures of the Indus (b069g53h)**

The Other Side of the Taj Mahal

This is the story of the Indian subcontinent told through the treasures of three very different people, places and dynasties that have shaped the modern Indian world.

The Mughals created the most famous and dazzling empire that India has ever seen, from the Taj Mahal to fabulously intricate miniatures of court life.

But in the process, did they bring civilisation to India or tear it apart?

From the moment the first Mughal emperor Babur arrived from Afghanistan the debate began - were the Mughals imposing their own religion of Islam on a Hindu country, or were they open to the religion and art of the country they were conquering?

The artworks the Mughals left behind over their 200-year empire - even the very buildings which have traces of Hindu architecture as well as Muslim - clearly show how this debate played out, and Sona Datta traces how this most spectacular of all Indian civilisations also sowed the seeds of discord.

**MON 00:00 Black Nurses: The Women Who Saved the NHS (b083dgtb)**

Documentary which tells the story of the thousands of Caribbean and African women who answered the call 70 years ago to come to the UK to save the then ailing health service. It's a tale of a struggle to overcome racism, their fight for career progression and their battle for national recognition.

**TUE 21:00 Tankies: Tank Heroes of World War II (b01pzv78)**

Episode 2

In the last of this two-part series, historian and former tank commander Mark Urban continues the story of six remarkable men from the Fifth Royal Tank Regiment in World War II.

Surviving veterans and previously unseen letters and diaries relate in visceral detail how an extraordinary 'band of brothers' fought throughout the war.

This episode picks up the story with the regiment's triumphant return from north Africa and victory at Alamein. Expecting a well-earned rest, instead they are joined by new recruits and re-equipped with brand new British-made Cromwell Tanks in preparation for D-Day - the invasion of Europe.

Fighting in the hedgerows in northern France is a shock to the men of the Fifth Tanks, who were used to fighting in the wide-open spaces of the desert. German soldiers lie in ambush behind hedgerows with hand-held anti-tank weapons. Veteran Gerry Solomon, one of the most experienced tank commanders, tells how his tank is knocked out and he is wounded.

The new Cromwell tank proves no match against the German Tiger tank. At the battle of Villers Bocage, a single Tiger brings the advance of the whole British Army to a standstill. But it meets its match when it comes up against another new British tank - the Sherman Firefly.

Veterans describe how for two months they fought a battle of attrition, losing hundreds of tanks in the British Army's biggest ever tank battle, but keeping the German tanks fighting in the British sector so the Americans could break out of their sector into open countryside beyond.

The Fifth Tanks advance rapidly, the first to liberate Ghent in Belgium. Pushing on into Germany just days before the end of the war, some of the regiment's most experienced veterans, who had been fighting since the beginning, are tragically killed.

Bad Press

In 2018, out of 574 federally recognised tribes, the Muscogee Nation (the fourth largest Native American tribe) was one of only five to establish a free and independent press - until the tribe's legislative branch abruptly repealed the landmark Free Press Act in advance of an election.

The tribe's hard-hitting news outlet, Mvskoke Media, would now be subject to direct editorial oversight by the tribal government. One defiant Muscogee journalist refuses to accept this flagrant act of oppression. As brave as she is blunt, Angel Ellis battles against the corrupt faction of the Muscogee National Council. As the election nears, Angel and her allies rally for press freedoms by inciting a voter-supported constitutional amendment.

An enthralling, edge-of-your-seat nail-biter that unfurls with the energy and suspense of a political thriller. Bad Press is a timely and unprecedented story about the battle for freedom of the press and against state-censored media.

**TUE 23:35 Eugenics: Science's Greatest Scandal (m0008zc5)**

Series 1

Episode 1

Science journalist Angela Saini and disability rights activist Adam Pearson, reveal that eugenics - the controversial idea that was a driving force behind the Nazi death camps - originated in the upper echelons of the British scientific community.

The presenters uncover how shocking eugenic beliefs

permeated the British establishment and intelligentsia; supporters included figures such as Winston Churchill and Marie Stopes. They see how eugenics influenced the Mental Deficiency Act of 1913, which resulted in thousands of disabled people being locked up for decades. Eugenics shaped immigration law, education policy and even town planning. The documentary uncovers disturbing links between British universities and German race scientists in the first half of the 20th century, and investigates how eugenics fed into the racist ideologies of Nazi Germany.

East Malling to Rye

Steered by his Bradshaw's Guide, Michael Portillo is on the last leg of his journey from Warwick to Rye in East Sussex. In the orchards of East Malling, Kent, Michael discovers that the Edwardians' serious attitude towards cultivation bore fruit. Rootstock developed at the NIAB Centre for Fruit Research, established in 1913, is today responsible for much of world apple production.

In Folkestone, Michael hears how the town coped with an influx of more than 100,000 refugees from Belgium fleeing the German invasion in 1914.

In the High Weald, Michael heads for Tenterden Town and the light railway which opened in 1900. The Kent and East Sussex heritage line has been restored by an army of volunteers. Michael lends a hand in the restoration shed and is rewarded with a wonderful trip aboard Edwardian carriages powered by a locomotive nicknamed "Terrier" to Bodiam.

Michael's last stop is the splendid medieval Cinque Port of Rye, where he tucks into a local speciality, scallops, and tours the beautiful home and garden of one of his favourite authors - the illustrious American Henry James.
